

## Storm (Buddha Bar Ocean)

Clouds keep on rising  
The world, keeps on spinning  
Dreams keep us flying  
And hate keeps us dying

Drift, in the wind and rain  
Feel, the blood in your veins  
See, the seagull fly  
And hear, the heavens cry

See the rainbow  
As summer rain starts to fall  
Hear the wind blow  
Feel the cold air through my walls  
Give me shelter  
Keep me safe and keep me warm  
Just hold me close and feel the wonder of the storm
