

THE ONLY WAY

V1

Close your eyes, turn down the light
Let's go flying in your dreams tonight
forget about the troubles in your mind
We're going on a journey, so leave them all behind

V2

Floating out across the silver sea
A muse's song is gently whispering in the breeze
Calling us to come to a distant land
Where moonlit shadows are all dancing on the sand

CH1

Believe, it's the only
Only way you'll see
Surrender your fears
And fly away from here
It's the only, only way you'll see
And be free

V3

We can't find peace and don't know why
And can't remember all the times we used to fly
When all the colors fade to grey
I'll meet you on the other side and dance the night away
